Butterbeer Recipe

Butterscotch topping (to taste)
1 oz Half and half cream
2 oz Butterscotch schnapps
Top with Vanilla cream soda
Finish with Whipped cream (hand whipped)

Place your butterscotch syrup on the bottom of your glass / mug, and add half and half cream. Stir until blended :)

Add your 2 shots of Butterscotch schnapps (or less if you don't want it too boozy)

Top the glass up – with enough room for whipped cream – with vanilla cream soda!**

Then, pour on your hand whipped cream to finish your delicious butterbeer off and voila!!

** Its important to add cream soda last. (If you add the cream last the cream will do something weird. Snape would take points away for that.)

**ALSO if you want it to be less sweet, use club soda instead of cream soda. But I find the club soda makes it taste a little off.
